Description

The bilingual wiki “Schreiben im Studium | Academic Writing” is an online resource on the topic of academic writing. The information provided here serves to encourage the self-reflection of the readers regarding their own writing actions. The wiki addresses primarily students. However, it can also be used in teaching of writing didactics by staff of writing centres or as a reference for those interested in the field of academic writing.

The following thematic approaches help to access the content of the wiki:

- the process of the writing itself
- the text or a writing project
- the question of one’s own type of writer
- information on guidebooks

Theoretical backgrounds and descriptions are enriched with practical tips, worksheets and references to guidebooks and partly explained by videos. Lüneburg 2020, Leuphana Universitätsbibliothek
